Coach Foster Gets His Charges Under Headway for Season.

Squad So Far Contains Everything from Vets to Rookles and No Line on Prospect is Possible.

LINCOLN, Neb., Sept. 15 .- (Special.)-Although foot ball practice has been in Although foot ball practice has been in approve the establishment of a training table, the expense to be footed entirely by the players. At the close of the foot in finux of students for registration has not yet exploded any mines of enthusiasm in Cornhusker circles. This his was such in finux of students for registration has not yet exploded any mines and found that the weekly expense for any few candidates that have appeared for practice have been quite limited as to numbers. Neither has the practice been satisfactory, but this has been largely due to excessively het weather. Foster, the new coach, is not discouraged, and with the commencement of registration after the next few days he is confident that things will soon begin to hum.

Coach Foster has now had upwards of a dozen men at work every afternoon for over a week. The roll is a mixture of a training table ban will be raised.

Coach Foster has now had upwards of a dozen men at work every afternoon for ever a week. The roll is a mixture of each player has been than the practice of the contract of progress for more than a week at the

claimed a share of attention, but the eeach has found time to drill several of the men in trick plays, made possible by the new rules for the government of the game. Coach Foster spent the summer in the New Hampshire mountains at a resort and much of his time was devoted to a study of plays to fit the new rules. He is now convinced that the popular college sport is to be a vastly different game from that in past years.

Game Better Than Ever. "I was first inclined to fear." Foster said. "that the rule tinkerers had hurt the game, but I now feel that they have made it far better than ever. There has been too much line plunging in foot ball in the past, but the new game will be exactly the contrary. It will be full of snappy end runs, double passes and trick plays. All of these must be in the open and the spectator will get far more than ever for his money. It will be a game so full of sensations that the public will be glad that the rulemakers made the changes.

"I shall be frank by saying, unless I miss my guess, that the new rules will not diminate injuries. Open play has always resulted in more injuries to players than the line bucking game, and the new game, don't forget is destined largely to be one of work in the open field. Foot ball in-

a good chance to defeat elevens of greater bulk. There will be the line plunging in the new game, and bone and muscle must be taken into account, but speed and brains will claim greater recognition than beef. and this is where the light team will de rive its best chance. I expect there will be many surprises before the season is over. For years the larger universities been defeating the smaller colleges by one-sided scores, the little fellows seldom, if ever, being able to score. This year Yale, Michigan, Chicago and Minnethe schools which are represented season after season by teams of physical giants, will have no cinch on victory, and

The practice at Nebraska has not gone for enough as yet and there are not sufficient players in uniform to permit of any line of the Corphuskers' prospects.

Coach Foster and Captain Mason, however, have already encountered some disappointments, as it now appears that two or three veterans from last season upon whom they had been depending may not don the moleskins. This doubt applies especially to Weller and Burns, both tackles on last Poster and Captain Mason, however, have Weller and Burns, both tackles on last Weller and Burns, both tackies on last year's eleven. Weller's credits are not up to the required standard, and Burns does not expect to return to school until the feot ball season is nearly half gone. Unless Burns can be induced to revise his plans it means that Coach Foster must develop two new tackies.

The veterans whose return is now cer-

## How to Exercise the Bowels

T D OUR Intestines are lined inside with millions of suckers, that draw the Nutrition from food as it passes them. But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition. This Poison makes a Gas that injures your system more than the food should have nourished it.

The usual remedy for this delayed passage (called Constipation) is to take a big dose of Castor Oil.

This merely make slippery the passage

for unloading the current cargo. It does not help the Cause of delay a trifle. It does slacken the Bowel-Muscles, and weakens them for their next task."

Another remedy is to take a strong "Physic," like Salts, Calomel, Jalap, Phosphate of Sodium. Aperient Water, or any of these mixed. What does the "Physic" do?

It merely flushes-out the Bowels with a waste of Digestive Juice, set flowing into the Intestines through the tiny suckers.

. . . Cascarets are the only safe medicine for

the bowels. .

They do not waste any precious fluid of the Bowels, as "Physica" do. They do not relax the Intestines by greas-

ing them inside like Castor Oil or Glycerine. They simply stimulate the Bowel-Muscles to do their work naturally, comfortably, and nutritiously,

. . . They are put up in thin, flat, round-cornered Enamel boxes, so they can be carried in a man's vest pocket, or in a woman's purse, all the time, without bulk or trouble. The time to take a Cascaret is not

only when you are Sick, but when you first suspect you need one. Price, 10c a box. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet

stamped "CCC." All druggists.

Grand Island college had been booked for the curtain raiser, but It is now announced that the authorities there have decided to eliminate foot ball RUDIMENTARIES ONLY TRIED UP TO DATE this year, and Hastings college has been substituted.

Plan for Training.

The athletic board is to announce the selection of an assistant coach during the coming week. The applicants to date are: Stuart, a former pupil of Yost at Michigan; Edgar Cotton, right tackle on the Cornhusker eleven for four seasons, and Johnson, the colored end, who finished four years of service at Nebraska last fail.

Manager Eager will also ask the board to approve the establishment of a training

BEAVERS WIN SERIES AND PURSE

Deciding Game is Pitchers' and Fielders' Battle and Good Ball.

ARAPAHOE, Neb., Sept. 15.—(Special Telegram.)—The Arapahoe-Beaver City ball game, which was the deciding game of a series of five for 1,000, was a pitchers' battle and also a fielders' battle, as a better played game all around is rarely seen. The base hits do not fairly report the batting, as no less than a dozen ordinarily safe drives and files were turned into outs by the marvelous fielding support given by both teams. Masters had the best of the pitching over Bellamy, but otherwise than in strike outs about even. Seventeen fly catches, many of them fierce, without a bobble, and the two erreirs given to each side were almost excusable. Adams of Oxford umpired a fine game with a few exceptions, calling a man out on first base for each side, both of whom were safe. Beaver City and Arapahoe both played winning ball, and while the former are winners in this five-game contest, the latter has two the best of it for the season. In spite of the rivalry between these teams the season ends in good feeling. Score:

Steamship Oregon, from Seattle to Valdes, Wrecked Off Cape Hinchenbrook.

REVENUE CUTTERS SENT TO ITS RELIEF

If Bonts Arrive Before Vessel Brenks Lives May Be Saved, but Without Help Death is Imminent.

SAN FRANCISCO, Sept. 15 -- Special dispatches received here of the wreck of the steamship Oregon off Cape. Hinchenbrook,

maries:
First race, six furiongs: Roseben won.
Suffrage second, Far West third. Time: the scene of the disaster to rescue the passengers.

The steamers should have arrived alongside the Oregon at 2 o'clock this morning. having left Seattle at 8 o'clock last night. if the cutters reach the Oregon before it breaks up they will doubtless have little difficulty in taking off those on board. Should the vessel go to pieces before the relief steamers arrive the passengers will have difficulty in making the shore under the most favorable conditions.

Cape Hinchenbrook is a narrow neck of land extending far out into the sea, forming one side of the entrance to Prince William sound. It has ever been regarded as a menace to navigation and it was but a few months ago that the government made an appropriation of \$125,000 for the erection of a light at the extreme end of the point. This work is now progressing. The Oregon is owned by the Northwestern Commercial company of Seattle.

The Oregon is an iron vessel of 1,650 net register, 283 feet long, 37 feet beam and draws 23 feet of water. It was built at Chester, Pa., in 1878. Its present home port is Seattle. The craft has had a checkered career. For years it plied between Portland and San Francisco, but was finally withdrawn because of unseaworthiness. Its hull was said to be honeycombed, and to remedy this hundreds of barrels of cement were placed in its hold, virtually giving it a stone bottom. It was permitted to run as a freighter after that, but some years later, about 1899, was again allowed to carry passengers. Since then it has been almost continuously on the Seattle-Alaska

State Base Ball League.

State Base Ball League.

KEARNEY, Neb., Sept. 15.—(Special.)—Kearney's suggestion that a state league be organized among the buse ball teams of the principal towns of Nebraska appears destined to become a reality in the very near future. What makes the outlook particularly bright at this time is the fact that Charles S. Sherman of Lincoln is expected here next week to confer with the fans of the city on the matter of starting the formation of the league. It is expected that at this time not only the preliminary steps, but the actual work of getting the organization started will be made.

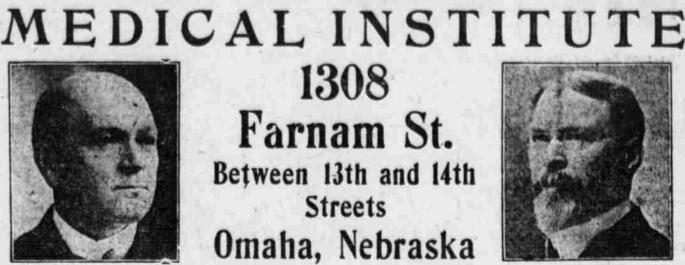

Local fans are more than pleased at the prospect of so speedy a realization of their hopes in this respect and it is expected that a meeting will be called early next week to take definite action on the matter. Cy Black is expected to arrive Tuesday and it is probable that the meeting will be called so that he may be present and give his assistance. Mr. Black has had experience along this line, being one of the originators of the Iowa State league about three years ago. The movement will be a great thing for Kearney and for base ball all over the state.

Men, if you want successful treatment and honest dealings, why not go to the reliable State Medical Institute, where you are not deceived by the many misleading statements, such as "three-day cures," "no pay until cured," "no money to begin treatment," "money refunded if not cured," etc., etc. Such statements are misleading and are used for the purpose of obtaining patronage. Honest doctors of recognized ability do not resort to such methods. We do not say that we will treat you without any money is advance for the purpose of securing patronage, and then when you call demand money payments and notes signed far in advance of reasonable charges; neither do we promise to cure, you in three or four days, knowing it will take longer; nor do we try to secure patronage by offering to refund money paid if a cure is not effected. We do not accept any cases we cannot cure. We guarantee a safe and lasting

find the State Medical Institute ready to commence treatment without delay. If we could see and treat all men when the first symptoms show themselves there would soon be little need for so-called specialists in chronic diseases, and there would be few men seeking a rejuvenation of their physical, mental and vital powers, and there would also be few marked with the stamp of Constitutional Blood Poison, and the sufferers from STRICTURE, VARICO-CELE, EMISSIONS, NERVO-SEXUAL DEBILITY, IM-POTENCY, RECTAL, KIDNEY and URINARY DSEASES and their complications would be reduced to a minimum. But as long as men continue to disregard the golden "A stitch in time saves nine," and continue to neglect themselves or to exercise indifference or poor
